

requested; statements regarding what section ERISA is thought to be in violation and whether the transaction(s) involved have already been entered into; a statement of whether the transaction is customary in the industry; a statement of the hardship or economic loss, if any, which would result if the exemption were denied; a statement explaining why the proposed exemption would be administratively feasible, in the interests of the plan and protective of the rights of plan participants and beneficiaries; and several other statements. In addition, the applicant must certify that the information supplied is accurate and complete.

Section 408(a) of ERISA requires that before granting an exemption from 406(a) the Secretary "shall require that adequate notice be given to interested parties, and shall afford interested persons opportunity to present views." Thus, section 2570.43 of the exemption procedures regulation requires that the applicant for an exemption provide interested persons with a copy of the **Federal Register** notice containing the proposed exemption and a statement which informs them of their right to comment on the proposed exemption.

II. Current Actions

The Office of Management and Budget's approval of this ICR will expire on September 30, 1998. This existing collection of information should be continued because the requirement that an applicant for an exemption disclose information regarding their application is necessary in order for the Department to make an informed decision regarding the application. Further, the requirement of the notice to interested parties ensures that participants and beneficiaries are informed of the application for exemption and have the opportunity to respond.
